Bespoke workshops for performing arts students

WHO ARE WE FOR?

Actors Alchemy creates specifically curated, performer-led workshops for performing arts courses. Each session is practical, supportive and shaped around where students are in their training - building confidence and helping them refine their audition process.

Although delivered in a workshop setting, the work remains personal - building from each performer's strengths and helping them strengthen their relationship to the work, to themselves and to the wider industry. Every workshop is designed to complement existing training while remaining adaptable, accessible and affordable.

OUR WORKSHOPS

Bespoke Workshops for Performing Arts Courses

HIGHLY RECOMMENDED

01 The West End Workshop Series

A realistic mock audition environment where performers build confidence, challenge themselves and grow in their understanding. Suitable for all performers looking to strengthen their audition technique, vocal confidence and versatility in the room. Bring a 32-bar cut, learn an intermediate-level movement combination, receive personalised feedback, observe others and finish with an industry Q&A.

02 Self-Tape Synthesis

A practical workshop on self-tapes as a key part of the audition process, covering tripod recording, cold reading and practical tape technique. Recordings may be used for Spotlight promotion at Fraser's and the practitioner's discretion.

Further Workshops

03 The Mock Audition - 32 bars, movement, panel etiquette, redirection and confidence under pressure.
04 The Mindset Mentor - Grounding, emotional regulation, self-trust, rejection and resilience.
05 The Company Code - Company etiquette, communication, contracts, rates, networking and professional conduct.
06 Ship Shape: Cruise 101 - Cruise audition structure, vocal and movement expectations, rehearsals and life onboard.
07 The Q&A - Casting, representation, submissions, contracts, professional relationships and life after training.

TAILORED WITH YOU

Each workshop can be tailored with the practitioner to suit their priorities and the current needs of their students.
